Lesson #22-25: Final Project

Overview
For this lesson, I am having students make HAST sub sites. The kids are working on websites our school will actually use and modify as the years go on.

Lesson Summary
- *Introduce the final Project*
- *Complete the project.*
- *Discuss presentations and vote on the best websites.*

CS Content
HTML
CSS
Collaboration.

Objectives
Students will be able to:
- Apply all of the objectives learned in unit 3.
-

Materials and Prep
- A web domain host.
-

Resources
Student Documents
- https://www.midphase.com/website-hosting/
-

Code Studio

Video

Assessments
- Discussion
- Presentation.
- Voting on winning projects.

Notes
We use a separate domain than our schools. The Athletic Department fronted the bill. There is a link to the service we use in the resources.
